Jason Scott

Software Engineer at Knightfox App Design Ltd.

Solving everyday problems we encounter betters the quality of life for those around us and also help others to help others.

EXPERIENCES

12/2014
Today

Knightfox App Design Ltd.
Software Engineer

Create and tailor software solutions on a per client basis. - Websites - Web Apps - Desktop Apps - Mobile Apps

04/2013
06/2015

Blaze Ltd.
Co-Founder

I lead a team and developed a mobile payment platform in Jamaica. This project was overseen by some of the developers of Google Wallet. This system was covered in unit tests and is monitored by a CI server. This project was taken to market and was well received by the public.

Jun. 2012
Sept. 2012

eGov Jamaica (Fiscal Services Limited)
System Administrator

During my stay at eGov I was tasked with IT troubleshooting and automating the process of adding computers to the companies network. I did this by writing a BASH script that enforced company IT policies. I also performed routine program upgrades and hardware upgrades. I was also put in charge of a VPS and its users.

Aug. 2011
Aug. 2011

Digicel Jamaica
Data Entry Clerk

I oversaw the digitization of blueprints and files related to cell towers
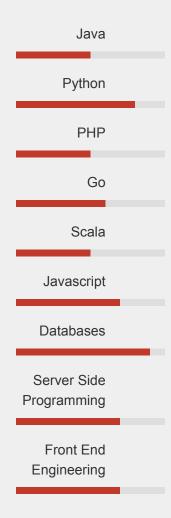

Jul. 2011
Jul. 2011

Jamaica Stock Exchange
Database Engineer

Designed and implemented a SQL Database to store the information of financial institutions in the Caribbean
